

## **Engineering Technician**

Infrasense, Inc. is a world leader in the development and application of advanced non-destructive evaluation (NDE) and remote sensing technologies for the evaluation of bridge decks, highway and airfield pavements, tunnels, parking structures, and other transportation facilities. We have an exceptionally talented, diverse, and dedicated team that is passionate about the work we do and meeting our client's needs. Over the past 2 years Infrasense has expanded its geographic reach significantly, completing projects in over 25 U.S. States. We are more optimistic than ever about our company's future and are particularly excited about new technologies we are implementing, new markets we are on the forefront of, and the new talented people joining our team! Please review our website at [www.infrasense.com](http://www.infrasense.com) for more information on our background, services, and typical projects.

Infrasense is anticipating significant growth in the next 1-2 years, and is currently looking to hire for multiple positions, including a Full-Time Engineering Technician. Are you looking to work in a collaborative and flexible environment where your unique capabilities and contributions are valued? If so, we hope you will consider applying to join our team by sending a cover letter and resume to [careers@infrasense.com](mailto:careers@infrasense.com)
